**UNLOCKING \$50
BILLION IN TRAPPED
MICRO-CAP VALUE**

THE \$50BILLION PROBLEM NOBODY'S SOLVING

MARKET MAKER ABANDONMENT

Market makers permanently exit when daily trading volumes fall below \$100K, leaving micro-cap stocks unsupported and illiquid.

ZERO LIQUIDITY TRAP

Over 5 million shareholders are stuck with billions in shares they cannot sell due to lack of market liquidity.

PROHIBITIVE COSTS

Annual market maker fees ranging from \$25K to \$75K deter companies from maintaining liquidity, with no guaranteed trading results.

DEATH SPIRAL

Lack of liquidity drives away investors, causing company failures and significant losses for shareholders trapped in worthless stocks.

THE SOLUTION: TOKENIZED EQUITY INFRASTRUCTURE

PERMANENT LIQUIDITY THROUGH TOKENIZATION

Dormant OTC shares are converted into 24/7 tradeable tokens, each backed 1:1 by real equity, unlocking continuous market access for shareholders.

SEC-REGISTERED CUSTODY PARTNERSHIP

Empire Stock Transfer securely holds shares permanently under strict SEC regulations, ensuring full compliance and shareholder protection.

BONDING CURVE PRICE DISCOVERY

Automated market making via bonding curves replaces traditional market makers, enabling transparent, real-time price discovery without high fees.
